

HERITAGE VINE

RESIDENTIAL CELLARS

“Wine can of their wits the wise beguile,
make the sage frolic, and the serious smile.”

- Alexander Pope

Wine is such a central part of our lives, bringing people together and marking the most memorable occasions. As fellow wine enthusiasts and appreciators of the making the most out of our lives, we understand the personal connection you have with your wine collection. It’s more than a mere investment; it’s a reflection of your unique tastes and cherished memories.

From our humble family beginnings to the cellars we build in skyscrapers in some of the greatest restaurants and hotels in the world, our love for wine and the craft of building wine cellars remains unwavering. Our design is a testament to this understanding, showcasing our dedication to creating the perfect space that celebrates your passion for wine.

At Heritage Vine, we deeply empathize with your desire to preserve and display your collection in a way that complements your home’s elegance and your refined lifestyle. Our expert team of designers and craftspeople take great pride in crafting custom wine cellars that are not only visually stunning but also designed to maintain the ideal environment for your wines.

As you browse through our carefully curated selection, we invite you to envision the possibilities of creating a wine cellar that is truly a reflection of your personal journey and love for wine. We are excited to collaborate with you, offering our expertise and commitment to quality, in order to bring your vision to life.

We look forward to working closely with you and creating a bespoke wine cellar that exceeds your expectations, adding a touch of sophistication and charm to your distinguished home.

Warm regards,

Your Heritage Vine Team

OUR PARTNERS

WHAT MAKES AN HV CELLAR?

Every bottle of wine, every collection, and every person is unique and so should be their cellar. We celebrate this individuality by designing cellars that are equally distinctive. While our designs are tailored to each client’s specific needs and preferences, there are key elements to be incorporated into every cellar.

CLIMATE CONTROL

is the importance of maintaining the ideal temperature and humidity levels in your wine cellar. Ensuring your wines age properly and stay in perfect condition is our top priority. By selecting the right location and investing in a high-quality climate control system, we create a stable environment for your precious collection.

FRAMING & INSULATION

ensures the stability of your collection by using high-quality insulation and vapor barriers. These protective measures stop movement, help regulate temperature and humidity, and prevent moisture from seeping into the cellar. This way, we safeguard both the structure and your wine.

RACKING & STORAGE

solutions that are tailored to cater to various bottle sizes while showcasing your collection in an organized and visually appealing manner. Working closely with our clients we create a layouts that maximizes space, highlights your prized bottles, and reflects your personal taste.

AESTHETICS

play a key role in a wine cellar that is not only functional but also a unique and personalized space that reflects your passion for wine. By incorporating your style preferences and incorporating tasteful design elements, we create an exceptional experience for you and your wine collection.

LIGHTING DESIGN

that is energy-efficient, low-heat lighting options that enhance the ambiance of your wine cellar without causing any harm to your wines. LED lights, dimmers, motion sensors, and accent lighting are some of the smart choices we use to create a visually stunning yet functional space.

GLASS WINE WALL Chromed Steel, Glass & Acrylic shown. Racking also available in matte black, brushed nickel, golden bronze or gunmetal finishes. Triple Bottle Rack and Display Rack shown.
DIMENSIONS: 118” H x 122” W
COOLING: Ceiling-mounted Split System
CAPACITY 621 Bottles

OUR PROCESS

1

DISCOVERY

In this initial stage, we focus on understanding your unique needs and vision for your custom wine cellar. We'll schedule a comprehensive consultation and site visit at your convenience, where we'll discuss your preferences, goals, and any specific requirements. By assessing the designated space, we can gain a clear understanding of the project scope and ensure your vision comes to life.

2

DESIGN

Once we have all the necessary information, our talented design team will create a detailed plan for your custom wine cellar. This plan will incorporate your specifications, preferences, and any unique features you desire. We will present the design to you for approval and make any necessary revisions, ensuring the final design aligns perfectly with your vision.

3

SOURCING

With the approved design in hand, we'll move on to sourcing the finest materials for your wine cellar. Our team will carefully select materials that meet the highest standards of quality and aesthetics. We'll ensure that every component, from the wood and metalwork to the cooling systems and lighting, meets your expectations and contributes to the beauty and functionality of your wine cellar.

4

FABRICATION

Here our skilled craftspeople will bring your custom wine cellar to life. They will meticulously construct each element of the wine cellar using the sourced materials, adhering to the highest standards of craftsmanship. Our team's attention to detail guarantees that your wine cellar will be a stunning addition to your home, showcasing your prized wine collection.

5

INSTALLATION

Finally, our professional installation team will ensure your wine cellar is seamlessly integrated into your home. They will handle every aspect of the installation, including the integration of shelving, cooling systems and lighting. Our team will test everything to ensure optimal performance and that your wine cellar is ready to store and display your wine collection.

LIVING SPACES

BRINGING LUXURY INTO FOCUS

Imagine stepping into your elegantly designed living space and being greeted by a stunning wine cellar that showcases your collection like never before.

The experience of having a custom-built wine cellar doesn't have to mean dedicating a whole room to it.

You may be reaching for a perfectly chilled bottle of wine while entertaining guests or simply relaxing after a long day. Whatever the reason, the temperature-controlled environment ensures that your wine is always ready to be savored, while the elegant design provides a focal point that enhances the overall ambience of the room.

COOLING: Ceiling-mounted Split System
CAPACITY 621 Bottles

STRIKE THE PERFECT BALANCE

A well-designed wine cellar balances display, capacity, and functionality. It should showcase your collection attractively, optimize space for current and future storage needs, and provide optimal conditions to preserve wine quality. Combining various configurations and storage options can result in a visually stunning and practical custom wine cellar. By blending different racking systems, display options, and design elements, you can create a unique space that not only elevates your home's ambiance but also effectively protects and showcases your treasured wine collection.

DEDICATED SPACES

DIMENSIONS: 118" H x 107" W x 78" D

COOLING: Ducted Split System

CAPACITY 427 Bottles

CELLARS ARE DESIGNED NOT TO STORE WINE BUT TO ENJOY IT

Even in a small wine cellar, there are still ways to create an enjoyable wine tasting experience. For example, consider adding a small bar area or countertop where you can pour and taste wines. You can also add some comfortable seating in the adjacent room, allowing you to take a break and enjoy your wine in a cozy environment. Decorative elements, such as artwork, enhance the overall ambiance and make your small cellar feel like a special place to enjoy your wine. Remember, it's not just about the size of the cellar, but how you make the most of the space you have.

TRADITIONAL CELLARS BROUGHT TO LIGHT

Traditional old-world cellar ideas turned into a sophisticated modern design.

By using classic sustainable materials, you can turn your additional space into your wine oasis. Choose from our variety of hardwoods in an array of finishes. Add adjustable LED lights to spotlight your favorite reserve bottles or to add a touch of drama. With our skilled Heritage Vine team by your side they can make any of your wine cellar dreams into a reality. From label forward designs, to making the most of every square inch of your dedicated space, we can make the process seamless and stunning.
